

Need Business Computers or Servers?

Managed Infrastructure Delivered as a Subscription

Does your organisation need new business workstations or a server, but the cost is ridiculous? Our Managed Infrastructure Delivered as a Subscription (MIDaaS) hardware is designed for organisations that need equipment **now** with low up-front costs and a simple monthly subscription payment.

Consulting One MIDaaS allows organisations to pay a small installation fee, and then a monthly subscription for proper business-class technology. All warranties, replacements, and eventual disposal are our responsibility, so you can get on with business.

- A fixed installation cost with discounts for multiple computers, and significant savings for customers with MyTechTeam
- Desktop computers are typically \$19ex per month, \$7ex per month for monitors, and servers from \$220ex per month
- Next Day response on replacements
- Complements C1 MyTechTeam Service offerings and C1oud products such as Microsoft Office 365 and Dropbox
- Includes Windows 7 or Windows 10 Professional
- Full 24x7 hardware monitoring using our management software
- Includes full parts and labour warranty
- Easy on your cash flow, save that money for other things!

- ❖ Subscription-based
- ❖ Low setup fees. Significant discount for customers with a MyTechTeam support agreement
- ❖ Includes Windows 10 Professional, with the option for Windows 7
- ❖ 24x7 Monitoring
- ❖ Worry-Free & Hassle-Free
