Consulting One Managed Infrastructure

Delivered as a Subscription

Businesses are always looking for ways to effectively manage cash flow, whilst providing access to modern business class technology for employees. Our Managed Infrastructure Delivered as a Subscription (MIDaaS) service allows businesses the opportunity to replace more hardware, sooner, and bundle it with services and support

Consulting One MIDaaS allows organisations to pay a small subscription fee per month for proper business-class technology. All warranties and replacements are our responsibility, so you can get on with your business.

- No lock-ins with a small installation fee – installation is waived for customers on a MyTechTeam agreement
- Servers, Desktop Computers and Monitors can be bundled
- Next Day response on replacements
- Complements C1 MyTechTeam Service offerings and C1oud products such as Microsoft Office 365
- Includes Windows 7 or Windows 10 Professional
- Full 24x7 monitoring using our management software
- Includes full parts and labour warranty
- Easy on your cash flow, save that money for other things!

Highlights:

- Subscription-based
- No setup fees with a MyTechTeam agreement
- Includes Windows 7 or Windows 10 Professional
- 24x7 Monitoring
- Worry-Free and Hassle-Free
