Consulting One Business Identity

Domain Name | Basic Email | Starter Website

- Still using a Bigpond, Yahoo, Gmail or Hotmail email address for your business?
- Unsure how to get online quickly and easily?

Since 2006 Consulting One has been working with organisations to solve their business technology problems. We now have a unique, low-cost offering to get small businesses online with their own domain name, basic email services and a starter website.

- Only \$13.50ex per month when paid annually
- No setup or migration fees for standard setups on 3 year agreements;
- You choose the .com.au domain name and we manage it all for your peace of mind;
- Add additional domain names for marketing purposes if required;
- Starter website consists of standard templates and up to 4 pages of information, products and contact info – simple interface to build it yourself;
- Up to 5 individual mailboxes (e-mail addresses) to start with. Add more or upgrade to Office 365 for more advanced features later;
- A fully-managed worry-free solution with a simple annual fee – with a 60 day opt out period upon expiry;
