Consulting One Business Telephony

Your Flexible Workplace

Consulting One's Business Telephony solution delivers powerful business telephony features without any up-front investment in hardware or telephone lines. For a simple, fixed monthly subscription pay only for what you need, for employees anywhere in the world, with UNLIMITED calls.

Our hosted business telephony solution is based in a Tier-1 data center in Australia and allows VoIP telephones to connect from anywhere on the Internet. Your workplace is wherever your employees are! It's time to get rid of that old phone system, expensive phone lines and over-priced call rates.

- Add new phone numbers or bring your current phone numbers. We're experts at replacing existing phone systems with a minimum of drama.
- Work from anywhere with an Internet connection.
- Need a phone at work, and at home with the same number? Sure.
- Simple pricing model – just pay per extension per month.
- We provide the handset with no more to pay.
- Unlimited local, national and mobile calls.
- A fully-managed worry-free solution with a simple monthly fee. Let us take care of all the details and never have to worry about your phone bill again.

Hosted Phones:

- Bring your phone numbers
- Work from anywhere
- Advanced features such as groups, voicemail and more
- Simple monthly subscription
- Fully managed solution
- Worry-Free and Hassle-Free
